# CCE IIT Mandi Next Gen Learning Newsletter 2025

# OUR VISION

**Tushar Jain**  
Head of CCE, IIT Mandi

At IIT Mandi, our microcredential upskilling programmes are designed to transform learning across universities through collaboration and innovation. By partnering with institutions nationwide and delivering teaching through IIT Mandi's expert faculty, we create immersive, real-world learning experiences that go beyond textbooks. Our vision is to empower students to think critically, work collaboratively, and innovate with clarity and confidence—building adaptable leaders who can thrive in a rapidly changing world.

# ABOUT CCE IIT MANDI

The Centre for Continuing Education (CCE) at IIT Mandi, established in 2022, addresses the national need for skilling, up-skilling, and re-skilling across various sectors. It conducts diverse programs for learners ranging from school dropouts to working professionals, enabling global access to knowledge and professional development. CCE supports academic outreach activities such as conferences, workshops, and training programs, while also providing essential logistical and administrative assistance for their execution.

*"Our micro credential programmes give students from across universities the chance to learn from IIT Mandi experts, solve real-world challenges, and build the skills to lead with confidence and creativity."*

- Tushar Jain, Head of CCE, IIT Mandi

## Legends Mentor Community

Experienced mentors guiding students toward career growth & real-world success.

## Students Readiness Programme

Top achievers rewarded with multiple exciting offers across dynamic categories.

## Campus Immersion Programme

Immersive academic journey of students where they got exposure to IIT Mandi's excellence and innovation.

## IA Programme At Campus

On-campus mentors offer ongoing support, doubt-clearing, and focused learning.

## Coming Soon

A powerful new app to simplify courses and make learning easy, smart, and right at your fingertips.

# MEET THE PROGRAM COORDINATOR

## Minor in Business Analytics

**Dr. Manoj Thakur**

# LEGENDS

## MENTOR COMMUNITY

Mentors support students in the CCE Minor Program by providing academic guidance, career direction, and exposure to industry trends—ensuring a holistic, future-ready learning experience.

### Core Responsibilities

#### Academic Support

- Clarify doubts on lectures, assignments, and projects.
- Ensure engagement through regular check-ins and progress tracking.

#### Career & Professional Development

- Guide career planning and review resumes and profiles.
- Coach on time management, communication, and workplace readiness.

#### Industry & Practical Exposure

- Share tools, trends, and real-world insights.
- Recommend events, resources, and practical learning opportunities.

#### Conduct & Well-being

- Foster an inclusive, respectful environment.
- Escalate concerns to CCE when needed.

Mentors are key enablers in shaping skilled, confident, and industry-ready professionals through personalized, ongoing support.

# STUDENT RECOGNITION PROGRAM

## Objective

A new initiative to recognize, celebrate, and reward students for their excellence, consistency, and contribution to the learning community—*every week and month*.

## Monthly Recognition Program: Masai MVPs (Monthly Valued Performers)

### Purpose

To recognize, celebrate, and reward student excellence, consistency, helpfulness, and overall contribution to the learning community—on a weekly and monthly basis.

### Categories of Recognition

- Scholar of the Month: Overall academic topper
- Community Star: Most active and supportive in peer learning groups
- Creative Contributor: Best Blog / Video Content / LinkedIn Post about learning journey

### Rewards

- Certificate (Digital)
- ₹1000 gift vouchers
- Social Media spotlight (Instagram/LinkedIn/YouTube)

# CAMPUS CONNECT

## INDUSTRY MENTORS

Because Sometimes, You Just Need Someone There

Learning tech can be tough — bugs, errors, concepts that just won't click. Wouldn't it help to have someone right there to walk you through it? That's why we're bringing Industry Mentor Support to your campus.

### In-Person, Not In-Chat

- A real person, on campus, ready to help
- Sit together, fix bugs, clarify doubts
- No bots. No wait times. Just real support

### Clear Explanations That Stick

- Learn from someone who's been through it
- One-on-one help with code, concepts, and confusion
- Ask anything — no judgment

Let's Solve It, Side by Side

It's not just tech support. It's someone pulling up a chair and saying,

**"Let's figure this out together."**
